WE NEED TO...	Be present, ensure that we are found. Give confidence in us as a company and give them reason to contact us.	Explain the process of app development, best practices and show our past success stories. Be open, honest.	Get them to really understand what is involved – that nothing is an overnight success. Establish that we will be there to guide them through the process.	Display why we are the best team for the job and justify our pricing with substantiated information. Welcome questions.	Set clear expectations. Keep them informed with relevant information. Communicate frequently. Ask for feedback on how we're doing to ensure everyone is happy and on the same page.
